

## Revo Australian Microsite

Aggressive, modern, durable. Discover why anglers around the country are talking about the Next Generation of Revo spin reels from Abu Garcia. The sleek design of the Next Generation of Revo features the latest advancements in spinning reel technology to deliver cutting edge performance with every cast. Every hookset. Every critical moment on the water.

With almost a century of fishing expertise in it, Revo technology includes innovative design, precision engineering, AMG gearing, superior drag performance, advanced materials and a first class line management system.

describe the new Revo® spinning lineup from Abu Garcia®. Advancements such as the Rocket Line Management System™ and the AMGearing™ system on the newly designed Revo spinning reel combined with the lightweight and compact design of the family embody Abu Garcia's commitment to excellence as well as functionality and style.

Innovation Comes to Precision Spinning Gear

Abu Garcia delivers all-around performance in Revo Spinning

Top-end performance is the defining characteristic of every Abu Garcia® product.

Since introducing the Revo® spinning reel to the world in 2009, Abu Garcia has given anglers a decisive advantage each time a Revo spinning reel is deployed on the water.

Each Revo is equipped with the Rocket Line Management System, which is a combination of bail angle, spool lip design and slow oscillation that gives anglers the ability to cast farther and manage line more effectively. These reels also feature a Carbon Matrix™ system, which provides anglers with the smoothest, most consistent drag pressure throughout the entire drag range.

Abu Garcia is adding the Revo MGX to its list of finely tuned spinning reels. A new AMGearing system and X-MAG gearbox highlights a bevy of new features that set this reel apart from any spinning reel on the market. The AMGearing system is a finely tuned, machined gear that has better tolerances and better performance throughout the life of the reel. This feature is available on all Revo models except the Revo S. The X-MAG gearbox design provides a super light yet extremely strong gear housing.

Abu Garcia pulled out all the stops with the new Revo launch, which includes the MGX, Premier, STX, SX, S and Inshore reels. Each is precision engineered to

compete at the highest professional levels. Revo spinning continues to outperform the field and remains a leader in innovation.

RRP for the Revo family of spinning reels begins at \$219.

REVO MGX

**SUPER LIGHT, EXTREMELY STRONG**

Lightweight, compact design built for the discerning angler. The MGX legacy continues with the addition of the MGX spinning platform. When only the best will do, look no further than the Revo® MGX spinning platform.

REVO PREMIERE

**PRECISION ENGINEERING AT ITS FINEST**

It starts with our advanced aluminum machined gear system that gives anglers ultra-smooth gear feel and performance. To reduce weight, the Premier uses high-end components including an IM-C6 body design, a C6 integrated rotor, a carbon fiber handle and an EVA knob.

Casting efficiency is maximized by the Rocket Line management system that improves casting distance while reducing wind knots.

REVO SX

**PUREFISHING PR - For immediate Release**

Contact: Marc Huisken – p: 02 4350 5913, e: [mghuisken@purefishing.com](mailto:mghuisken@purefishing.com)

### **CUTTING EDGE DESIGN WITH ADVANCED PERFORMANCE**

The Revo® SX takes cutting edge design to the next level. By utilizing an Insert Molded C6 (IM-C6) carbon body design that incorporates a one piece aluminum gear box, the latest Revo® SX is lighter than the previous generation while maintaining excellent rigidity.

REVO S

### **THE NEXT GENERATION OF SPINNING DESIGN**

Smooth performance meets unique design in the updated Revo® S spinning platform. Class-leading features such as the Insert Molded C6 (IM-C6) carbon body design, a

Carbon Matrix™ drag system and HPCR™ (High Performance Corrosion Resistant) bearings make this Revo a fierce contender. A compact and lightweight design deliver all-day comfort on the water while the bold white cosmetics are sure to turn heads.

REVO INSHORE

**LIGHTWEIGHT, POWERFUL, SALTWATER APPROVED**

Hard fighting inshore species have met their match. The Revo® Inshore has been specifically engineered to handle the abuse of hard pulling fish as well as corrosive saltwater environments.
