PFLUEGER® PURIST® SPINNING REELS

Unique Body Composition for All Day Use

The Pflueger® Purist® spinning reels create more fun for amateur and avid anglers alike. With specialized components, anglers have the ability to take the Purist spinning reels fishing all day without worry of failure from their favorite reel.

Built with a unique hybrid body, the Purist spinning reels use both aluminum and graphite components to form a rugged yet light-weight fishing reel.

Available with a carbon hybrid fiber drag, the Purist spinning reels also feature nine plus one stainless steel ball bearings, double anodized aluminum spool and aluminum handle.

For a rod and reel combo package, the Purist spinning reels are a perfect match to the Trion series.

Cosmetically pleasing finished in silver and grey the Purist is a fine choice for anglers looking for amazing performance at a reasonable cost. Purist spinning reels come in 25, 30, 35 and 40 sizes, ideal for light to medium lure fishing.
