

North East Coast Group Patrol

Saturday 17 & Sunday 18 January 2015

Fishcare Tasmania volunteers are planning a group patrol this weekend taking in fishing locations about the North East and East Coast. Right in the middle of Christmas holidays, volunteers will be checking that fish identification signage and measuring rulers are in good order as well as being available to answer questions that anglers may have. They will have a supply of Recreational Sea Fishing Guides, plastic measuring rulers, rock lobster and abalone measures and will also be demonstrating the [new fisheries App](#). Without doubt volunteers will have plenty of tips and advice on fishing throughout these favourite holiday locations.

Parks Discovery Rangers Sarah and Anthea will also be on board with lots of cool shells and starfish. They would love to talk to children and adults about the animals that live in Tassie's wonderful fishy environment.

Below is an approximate schedule of the two days so if you see the blue fishy Fishcare trailer at any of these locations please come and say hello and have a chat.

Quenton Higgs

Fishcare coordinator, Northern Tasmania (Mob: 0407502046)

Attending: David Bye, Dane Burgess, Gary Mondon, Mick Barrett, Quenton Higgs, plus Sarah Mahoney and Anthea Shedley both Parks & Wildlife Discovery Rangers.
